

## 2017 Street Reconstruction Project

**June 27, 2017**

### Have a Question?

Throughout the project our team will keep you updated with these periodic newsletters and door hangers. If you have questions that are not answered here, we invite you to reach out to us using the contact information provided below.

Project Contacts	
Dane Ekdorn Construction Inspector dekdom@wsbeng.com	(612)749-2697
Nick Preisler Construction Manager npreisler@wsbeng.com	(612)269-3706
Lee Gustafson City Engineer lgustafson@wsbeng.com	(763)762-2821

### Curb & Driveway Installation

The City's contractor is anticipating to begin curb and gutter placement on Thursday, June 29th. Please plan ahead to have all vehicles out of your driveway, you will not have driveway access during installation or curing of the concrete.

No parking will be allowed for 24-hours on streets with newly poured curb and gutter, and property owners should anticipate being displaced from their driveways for 5-days after the new curb is placed. This is to allow the concrete curb and driveways to cure properly before any vehicles cross over it. You will be able to park next to the curb 24 hours after it is placed.

If you have any special access needs please contact Dane, who is the on-site representative.

### Roadway Construction

Once the contractor has completed the concrete installation and curing, they will begin final grading for the roadway. During this time the contractor will place "NO PARKING" signs in the areas of the project they will be actively working on. Please pay special attention to these signs as they will move frequently as the crews progress. It is critical to the project schedule that you do not park in these marked areas, and because of this, vehicles may be towed in order to keep the project on schedule.

### Project Website

These newsletters will be posted online and can be found on the City's website at:
