Pre-School Art Exploration Classes

Young children (ages 2-5) and their caregivers will get the opportunity to use a variety of art materials and processes to learn and create. Each class starts with a story that will lead into the project and get the creative minds flowing. Parents have no fear letting your child create art and get messy - the mess stays behind and you and your child get to bond while creating a fun art project to take home. Class time from 12:30 - 1:30pm. **Limit of 12 students per session - not including parent.**

CRAZY CONSTRUCTION

Parents will help their children construct crazy structures using cardboard, bottles, straws, paper, and other recyclables. This is a fun class that allows children to tape glue or staple (with parents help) items together in a fun and creative way all while exploring some basic principles of architecture.
